Publications
Your Committee can report now satisfactory progress for this year. The ten books planned for 1921 have appeared, together with the proceedings and the Shandian catalogue.

The new style of publication has justified itself and has been favorably received.

The ten books for this year have been sent to all members. Next year we propose to send ~~the~~ ^{the} magazine up to the value of the annual ~~may~~ above this amount ~~be~~ may be sold to members at prices set for each volume.

We hope to be able to keep the next proceedings under \$600.- as the present ones are too costly. Future issues should cost us less as the printer becomes familiar with our standards. We can not continue the total expenditure as of this year, so that we may print fewer pages in 1922.

The governors have relieved Mr Woods of the editorship and management of publications, so that he could give

more time to the cabinet. Your chairman
wishes to record our appreciation of his
long experience on the Journal and initiation
of the Monographs, and to thank him
for his loyal and efficient work.

Mr. H. C. was appointed Editor +
Publication manager and has taken hold
with his usual vigor and enthusiasm.
We are grateful for his wholehearted
support of all.

Five books ... present prospect
of which Mr. Gillingham's French Medals
is ready for the printer and Mr. Whitehead's
Pre-Mohammedan Coinage of India is almost
ready.

We must again remind our members
that we desire manuscripts on any
monastic subject, and would particularly
solicit American material.

PUBLICATIONS

The past weeks have seen the work of Mr. Gillingham's book FRENCH DECORATIONS carried forward as far as page proof. Strike in the Photo-engraving trade is holding up the printing, but we are assured that this strike is now over and we hope to continue the printing sometime next week.

We expect to follow with the Proceedings, but the copy for this cannot be made ready before the Annual Meeting, January 14th.

Except for the two plates, we now have ready a short article by Mr. Wood. We also have Mr. Whitehead's monograph on the Pre-Mahammedan Coinage of Northwestern India. And a recent letter from M. Vlasto states that he expects to mail before Christmas his TAPAS OIKIETHS, with 13 double plates.

This programme will carry us well into the summer as we are not trying to issue a volume each month as heretofore. There is strong reason for believing that we shall have more to print during the coming year than we have means for printing.

(Oka)

The fact that printers are beginning to look for work offers some reason for hoping that prices may come down a little.

We have obtained very satisfactory results by asking for estimates before placing the work; and doing the same for the illustrations, promises more reasonable costs for the future.

Brochures in hand as follows:

FRENCH DECORATIONS	Harrold S. Gillingham	1 Colour plate
GOLD DOLLARS OF 1858	Howland Wood	34 Half-tone "s
PRE-MOHAMMEDAN COINAGE OF NORTHWESTERN INDIA	R. B. Whitehead	2 " " plates
	M. P. Vlasto	12 to 14 collo- type plates
		13 double plates collootype

To the Governors of the American Numismatic Society:

In accordance with direction of the Council, I beg to submit a report of the condition of publications.

1. Delivery of Mr. Gillingham's monograph on French Decorations is promised by March 3rd. Delays by the printer and the engravers are partly responsible for the holding up of this publication. The monograph is to consist of 104 pages, including 34 plates and a frontispiece in colour. The author has dedicated the volume to Mr. Saltus, and we feel that it will be a very creditable and useful book.

2. The Proceedings for 1922 are also in the final stages and should be ready for mailing on or about March 10th. They are being printed by the Argus Company of Albany, N.Y. at the estimated cost of \$280. This does not include the printing of the Treasurer's report or charges for corrections.

3. We have ready for the printer Mr. Wood's article on the 1858 Gold Dollars which is to have two plates, and which because of its brevity will require but a short interval for preparation.

4. Following the above comes Mr. Whitehead's "Pre-Mohammedan Coinage of India," which is to have twelve plates and a map. The manuscript has been copied and the copy sent

for his final revision. It should be returned shortly and we then hope to begin printing this at once.

S. M. Vlasto's article on the Tarentine Oekists will be one of the largest monographs yet attempted. It will have thirteen double plates as well as a small number of text illustrations. The manuscript has had its first revision and can be sent to the printer as soon as Mr. Whitehead's article is started.

This will exhaust the manuscripts actually in hand at the present moment.

A number of monographs are promised, but the probability of their delivery is so uncertain that it hardly seems warrantable to enumerate them at this time.

Respectfully submitted,

Secretary
